

## Product **Die Struck Lapel Pin**

Die Struck Lapel Pins are perfect when you are looking for an all metal pin without the injection of colors into the design. These pins are frequently used by military, government, and various other organizations looking for a jewelry-quality pin.

A die of your design is created before a sheet of either copper, brass, or iron is stamped with the die to create an impression of your design. The pins are then cut out and plated with your choice of metal. Silver, gold, black nickel, and antiquing are available finishes. Raised areas of the design are highly polished while the background is left with a matte finish to create dimension.
